SUBJECT: American Bar Association Speech

I can think of a number of Members of Congress who would be interested in reading your speech to the American Bar Association. The idea of sending copies to the Hill comes from Martin Van Heuven, National Intelligence Officer for Europe. Unless you disagree, I plan to send copies to Senators Boren and Cohen and to Representatives Stokes and Hyde.

Van Heuven also tells me of a conversation you recently had with Majority Leader Foley on the subject of the image of the Agency. I believe Mr. Foley should receive a copy too.

I will prepare a covering note for my signature unless you prefer to write one yourself.
